

# Liferay Price List

## Key Definitions DXP, Commerce, Enterprise search

An **Instance** is equal to one copy of the software specified in this Price List.

**Sizing** is determined by the number of vCPUs and GBs of memory accessible by each Instance.

Sizing 1	Up To 8 Cores/vCPUs
Sizing 2	Up To 12 Cores/vCPUs
Sizing 3	Up To 16 Cores/vCPUs
Sizing 4	17+ Cores/vCPUs

## Key Definitions DXP Cloud, Enterprise Search for DXP Cloud Add-On

An **Instance** is equal to one copy of the software specified in this Price List.

**Sizing** is determined by the number of vCPUs and GBs of memory accessible by each Instance.

Small	12 vCPUs, 16 GBs
Medium	16 vCPUs, 32 GBs
Large	32 vCPUs, 64 GBs

A **Production Instance** is used in a production environment, accessing live data and servicing live requests.

A **Backup/DR Instance** is used in a disaster recovery (DR) environment, which is used for the purpose of disaster recovery and/or serving as a backup in case a live production server fails.

A **Non-Production/UAT Instance** is used in a non-production or user acceptance test (UAT) environment, not accessing live data, generally for the purposes of dev-integration, testing, quality assurance, staging, and user acceptance testing

**Add-ons** can only be purchased with an underlying DXP Cloud Environment Subscription. Resale of **Enterprise Search** is not eligible for rebate under the Liferay Service Partner Program.
