PREMISE

Paragraph 17 of art. 1 of Law no. 190 of 6 November 2012 ("Provisions for the prevention and suppression of corruption and illegal acts in the public administration") states that *"contracting authorities may indicate in their notices, calls for tenders or invitation letters, that failure to adhere to the clauses contained in the legality protocols or integrity agreements shall constitute a reason for exclusion from the procedure"*.

The National Anti-Corruption Plan, approved by resolution no. 72/2013 of the National Anti-Corruption Authority and subsequently updated states that the public administrations and contracting authorities, in implementation of the aforementioned paragraph 17 of art. 1 of Law no. 190/2012, shall draft and make use of legality protocols or integrity agreements when awarding public contracts. To this end, the aforementioned parties shall insert into their notices, calls for tenders and invitation letters, a safeguard clause stating that failure to adhere to the clauses contained in the legality protocol or integrity agreement shall result in exclusion from the procedure and termination of the contract.

Furthermore, ANAC, with its opinion 11/2014, expressed itself favorably with regard to the provision of the announcement that requires the acceptance of the legality protocols and integrity pacts as a possible cause for exclusion, "as these means are placed at protection of higher-ranking interests and the obligations thus assumed derive from the application of imperative rules of public order, with particular regard to legislation on the prevention and fight against organized crime in the procurement sector."

Finally, this agreement incorporates the recommendations provided by ANAC with the Guidelines no. 15 of 12 July 2019.

The Three-Year Corruption Prevention Plan MEF 2015-2017, Annex 4, provides that the structures, which carry out contractual activities, conform their behavior to what is foreseen in it, also through the inclusion of legality protocols / integrity agreements in the contracts with private economic operators.

In implementation of the above,
